Scientists play a critical role in public policy.
Join UC Riverside and the California Council on Science and Technology (CCST) for a convocation on science policy. This will be the prelude to a series of UCR lectures and discussions as we kick off the start of a new graduate student offering – the Science to Policy (S2P) Program.

Featured speakers include:

Aristides Patrinos
Chief Scientists of NOVIM and formerly of the Human Genome Project

Assembly Member Jay Obernolte
33rd District
Founder, FarSight Studios
M.S. Artificial Intelligence, UCLA ’97
B.S. Engineering & Applied Science, CalTech ’92

Gabby Nepomuceno
2017 CCST Science & Technology Policy Fellow in State Legislature
CA Dept of Toxic Substance Control

John Thompson
2017 CCST Science & Technology Policy Fellow in State Legislature
CA State Senate Office of Research
