

UNIVERSITY OF CALIFORNIA, RIVERSIDE

COMMENCEMENT 2025

MARLAN AND ROSEMARY BOURNS COLLEGE OF ENGINEERING

STUDENT SPEAKER

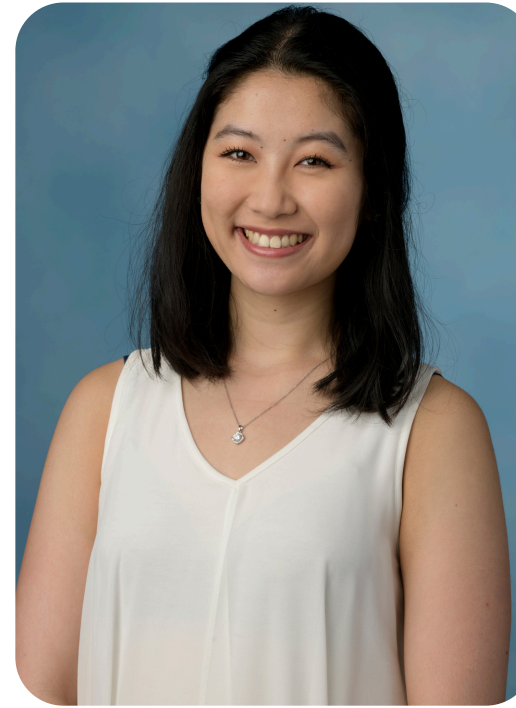

Joe Jimenez, B.S. in Computer Engineering

Joe gained invaluable hands-on experience as an undergraduate student that bridged the gap between theory and real-world application. Through collaborative lab work, he built functional systems, designed and deployed his own website, and strengthened his skills in hardware, software, and embedded systems. His professors' passion for the field deepened his enthusiasm for computer engineering. A highlight of his academic journey was attending a microarchitecture conference in Orlando, where he witnessed cutting-edge innovation firsthand.

During this time, Joe also launched his own mobile phone repair business, applying the knowledge he had gained in the classroom to entrepreneurial endeavors.

Beyond the classroom, he remained deeply involved in campus life and the broader community. As a Tech Assistant for CHASS, Joe supported AV systems across campus, gaining technical and customer service experience. He also mentored middle school students through STEM activities, sharing his love for engineering with future generations. Active in UCR hackathons and SHPE meetings, Joe built a strong support system and sharpened his problem-solving skills.

Grateful for the mentorship, career services, and inclusive environment BCOE provided, he emerged more confident and career-ready. After graduation, Joe plans to pursue a master's in computer science and work in the tech industry, while continuing to grow his mobile repair business with hopes of opening a shop of his own.

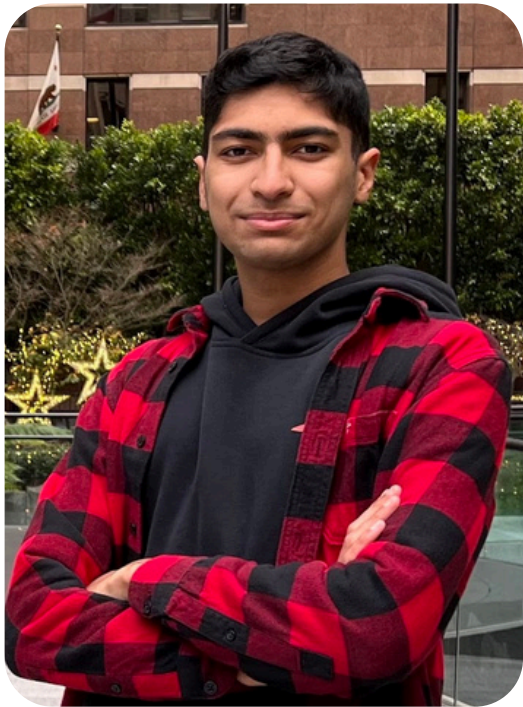

TASSEL TURNER

Chloe Au, B.S. in Computer Science

At BCOE, Chloe found more than an academic foundation—she discovered a vibrant community that shaped her personal and professional growth. Through leadership roles, including a two-year term as president of Women in Computing, and active involvement in the Cybersecurity Club, Chloe developed strong organizational and communication skills while fostering inclusive, team-driven environments. Hands-on experiences, such as conducting machine learning research and presenting at the Undergraduate Research Symposium, deepened Chloe's technical expertise and broadened her understanding of computer science.

Chloe is particularly thankful for BCOE's dedication to student development. Regular presentations by faculty and graduate students exposed her to innovative topics and potential career paths. Additionally, resources such as networking events and professional headshot days prepared her for the job market. These experiences have inspired Chloe's next steps: pursuing a career in software engineering and database development, equipped with the confidence and skills she gained at BCOE.

GRADUATE STUDENT MARSHAL

Divyank Shah, M.S. in Computer Science

ACM, the Association for Computing Machinery, became a cornerstone of Divyank's undergraduate experience. From his first year, ACM offered him invaluable opportunities to lead technical projects, collaborate with fellow engineers, and host events that bridged both professional development and technical learning. His involvement extended beyond ACM to include organizations such as Cutiehack, Rosehack, Bearhack, DesignVerse, Design at UCR, and IEEE Solar Car, all of which refined his collaborative and leadership skills. Divyank also contributed to impactful research under

Professor Hang Qiu in the Collaborative Intelligence Systems Lab and gained hands-on experience through internships at Comcast, Cisco, and ZyberTech. As a master's student, he deepened his connection to the academic community by supporting over 600 students as a teaching assistant for CS010C: Introduction to Data Structures and Algorithms.

The supportive and inclusive learning environment fostered by BCOE, where dedicated faculty and a strong network of student organizations empowered Divyank to explore and grow. The encouragement he received helped him discover pathways he might not have otherwise considered. Looking ahead, Divyank plans to enter the tech industry and develop innovative products and services that raise the bar in computing. At the same time, he aspires to give back to the academic community by becoming a computer science lecturer, sharing his passion and knowledge with future generations of students.

UNDERGRADUATE STUDENT MARSHAL

Aliyah Owens, B.S. in Computer Science

Aliyah's time at BCOE was characterized by meaningful leadership and impact on the community, especially as President of the National Society of Black Engineers (NSBE). Through campus-wide initiatives, mentorship programs, and fundraising efforts, she learned to transform classroom knowledge into real-world results while fostering a supportive culture. Under her leadership, NSBE received several awards and raised \$27,000 to send 14 students to the 50th Annual NSBE Convention, where many secured interviews, internships, and full-time positions.

Apart from NSBE, Aliyah led the Passing the Torch Peer Mentorship Program, supporting over 40 Black engineering students, and served as Marketing Chair for Women in Computing (WINC), where she organized technical workshops and boosted membership. These experiences, alongside her role as Public Relations Chair for NSBE, helped her enhance her communication and leadership skills while increasing access to opportunities for others.

The individuals and programs at BCOE facilitated Aliyah's growth, both technical and personal. With a solid foundation in leadership, mentorship, and collaboration, Aliyah will join Capital Group as a Technology Rotational Experience (TREx) Associate, where she looks forward to continuing her journey in software development, solutions engineering, and emerging technologies.

ACADEMIC PROCESSION

The Grand Marshal

Kenneth Barish, Academic Senate Chair

Graduate Student Marshal

Divyank Shah, M.S. Candidate, Computer Science

Undergraduate Student Marshal

Aliyah Owens, B.S. Candidate, Computer Science

The Degree Candidates

The UCR Pipe Band

The Faculty Marshal

Yue Dong, Assistant Professor, Computer Science and Engineering

The Administrative Party and Faculty of the University

PROGRAM

The National Anthem

All Present

University Welcome and Dean's Remarks

Christopher S. Lynch, Dean, Marlan and Rosemary Bourns College of Engineering, William R. Johnson Jr. Family Chair, and Professor of Mechanical Engineering

Student Speaker Address

Joe Jimenez, B.S. Candidate, Computer Engineering

Conferral of Degrees

Dean Lynch

Introduction of the Graduates

Dean Lynch

Baccalaureate Tassel-Turning

Chloe Au, B.S. Candidate, Computer Science

The Alma Mater

All Present

M.S. BIOENGINEERING

RONALD SEVILLA ABAD JR

HAIL FAIR UCR

By Byron Adams and Robert Wild – University of California, Riverside

UCR – Fair Alma Mater
Jewel of Old U.C.
“Fiat Lux” – A Shining Vision
Light to Set Minds Free

Seeking Ever – Yielding Never
Old Scots Near and Far
Waft Our Love Back to the Highlands
Hail Fair UCR

Orange Trees Blooming in the Highlands
Boyd Tower Chimes Ring Clear
Standing Tall Twixt Mount and Desert
Scots all Hold Her Dear

Seeking Ever – Yielding Never
Old Scots Near and Far
Waft Our Love Back to the Highlands
Hail Fair UCR

RIVERSIDE
